Lab 01: Fabric tour, Capacity, and Capacity Metrics	1
Introduction	1
Objectives.....	1
Task 1: Enable Fabric Trial.....	3

Task 2: Install Capacity Admin app7

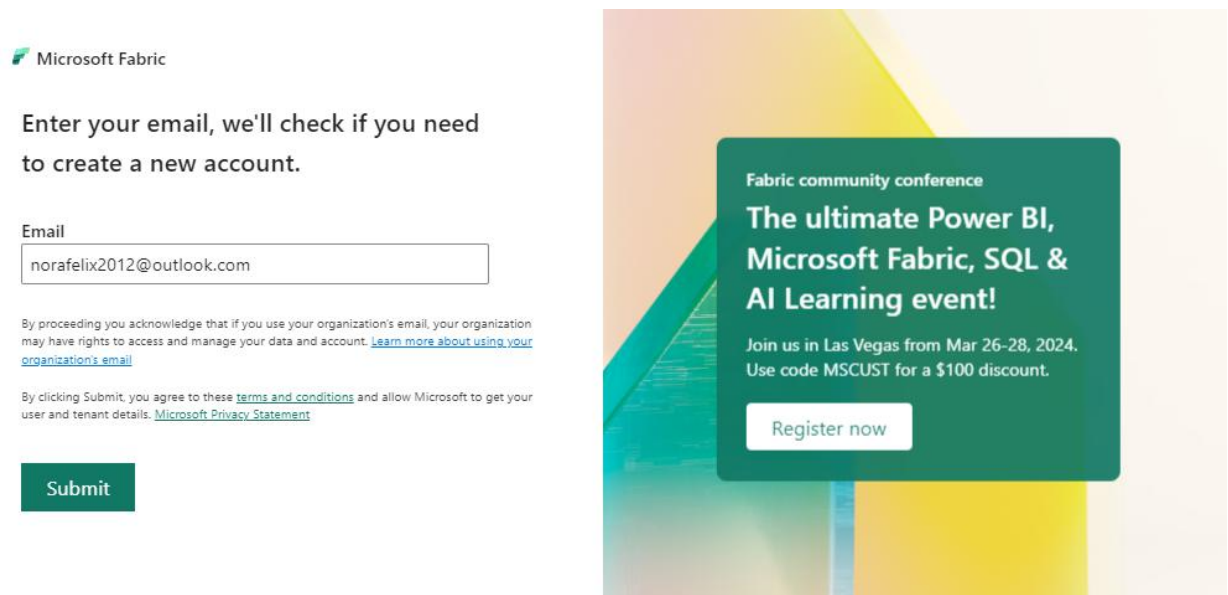

Task 1: Enable Fabric Trial

The Fabric trial requires a Power BI license.

1. Navigate to <https://app.fabric.microsoft.com>

2. Use your own personal (*@outlook.com or *@hotmail.com email account)

3. Click on **submit**.

4. With a new live.com (*@outlook.com or *@hotmail.com email account) account , you will be selected for a free Fabric account. Try this to see you need organisation email to enable fabric trial with this option.

You've selected Microsoft Fabric free

① Let's get you started

norafelix2012@outlook.com looks like a personal email address. Enter your work address so we can connect you with others in your company. And don't worry. We won't share your address with anyone. [Sign in with a work email address](#)

② Create your account

③ Confirmation details

5. Sign in with your work Account.

You've selected Microsoft Fabric free

① Let's get you started

Enter your work or school email address, we'll check if you need to create a new account for Microsoft Fabric free.

Email

By proceeding you acknowledge that if you use your organization's email, your organization may have rights to access and manage your data and account.

② Create your account

③ Confirmation details

6. Sign in with your Organisation account to get Microsoft fabric free Account.

You've selected Microsoft Fabric free

1 Let's get you started

Looks like you're already a Microsoft customer. Sign in as **felixam@microsoft.com** to get Microsoft Fabric free with your account.

[Sign In](#)

2 Create your account

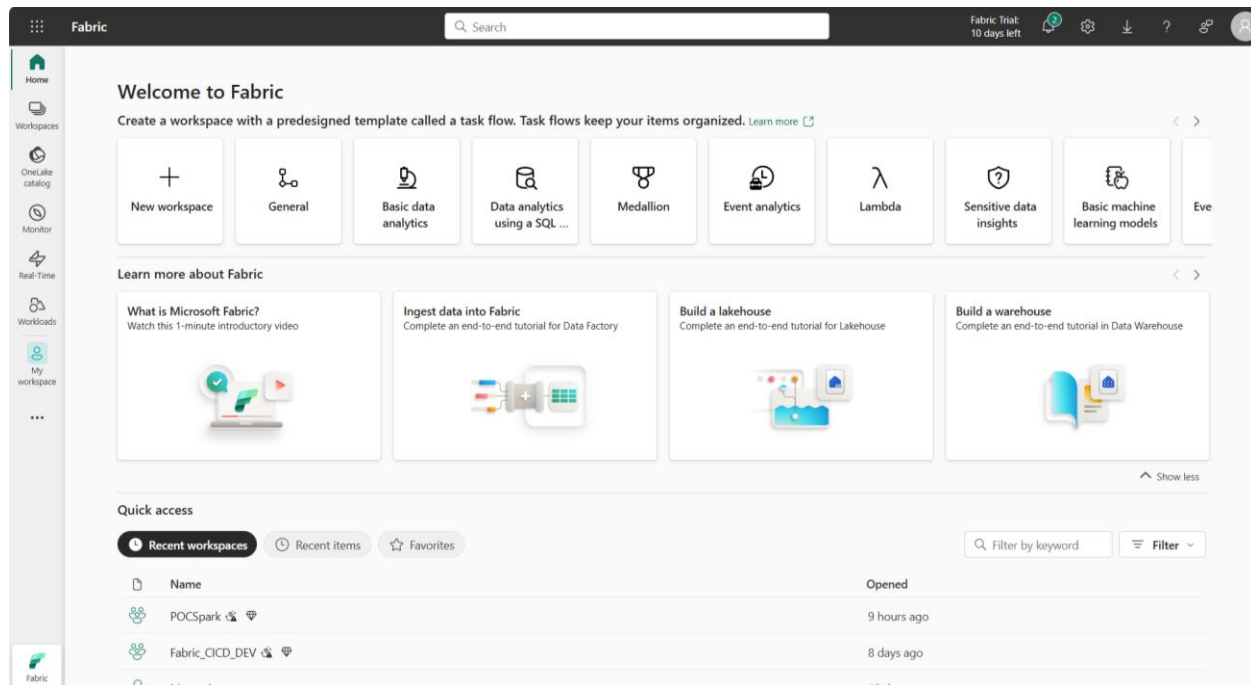

3 Confirmation details

7. Follow the steps on the screen to create and confirm your fabric account.

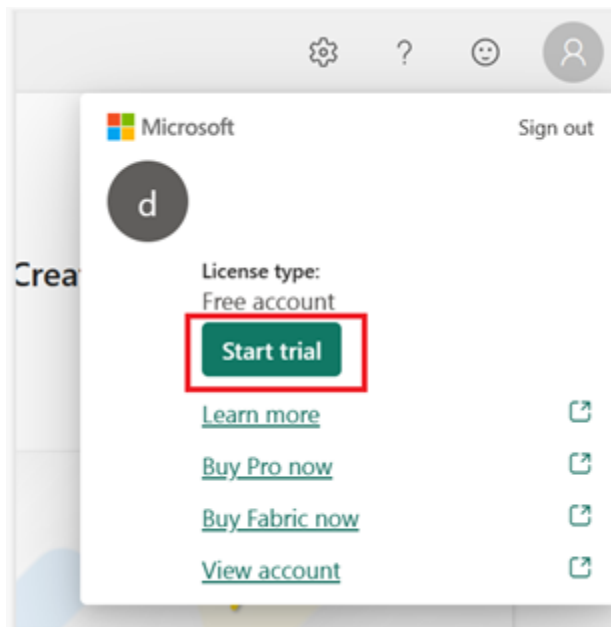

8. Start the Fabric trial.

Follow these steps to start your Fabric trial.

1. Open the [Fabric homepage](#) and select the Account manager.

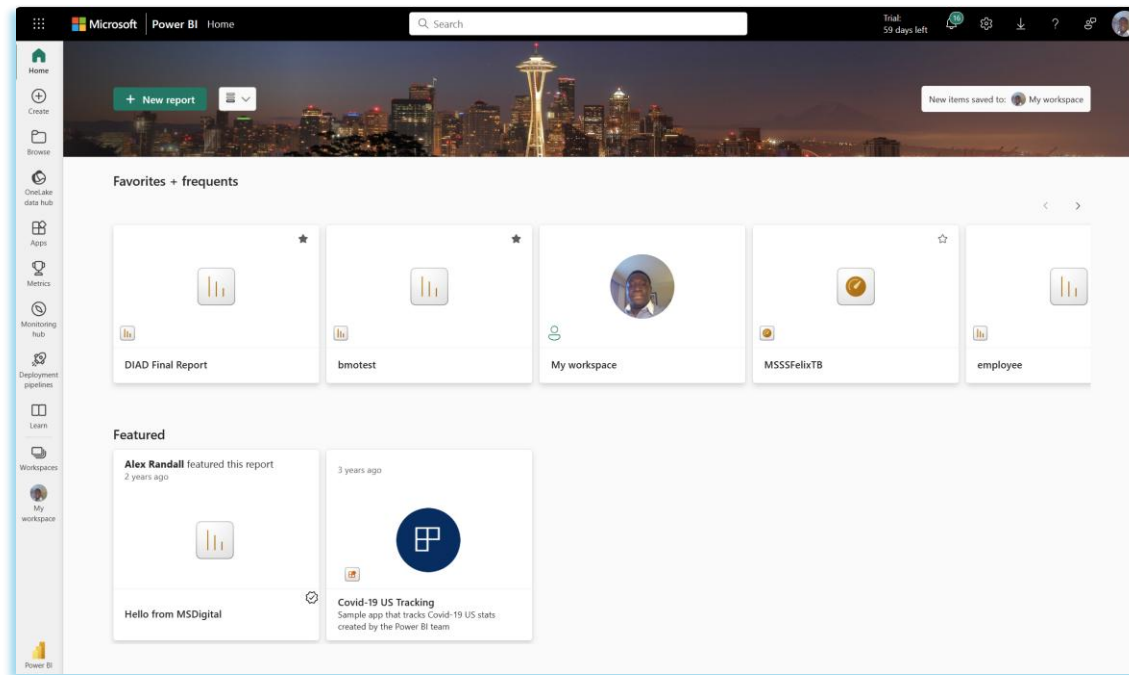

2. In the Account manager, select **Start trial**. If you don't see the Start trial button, trials might be disabled for your tenant.

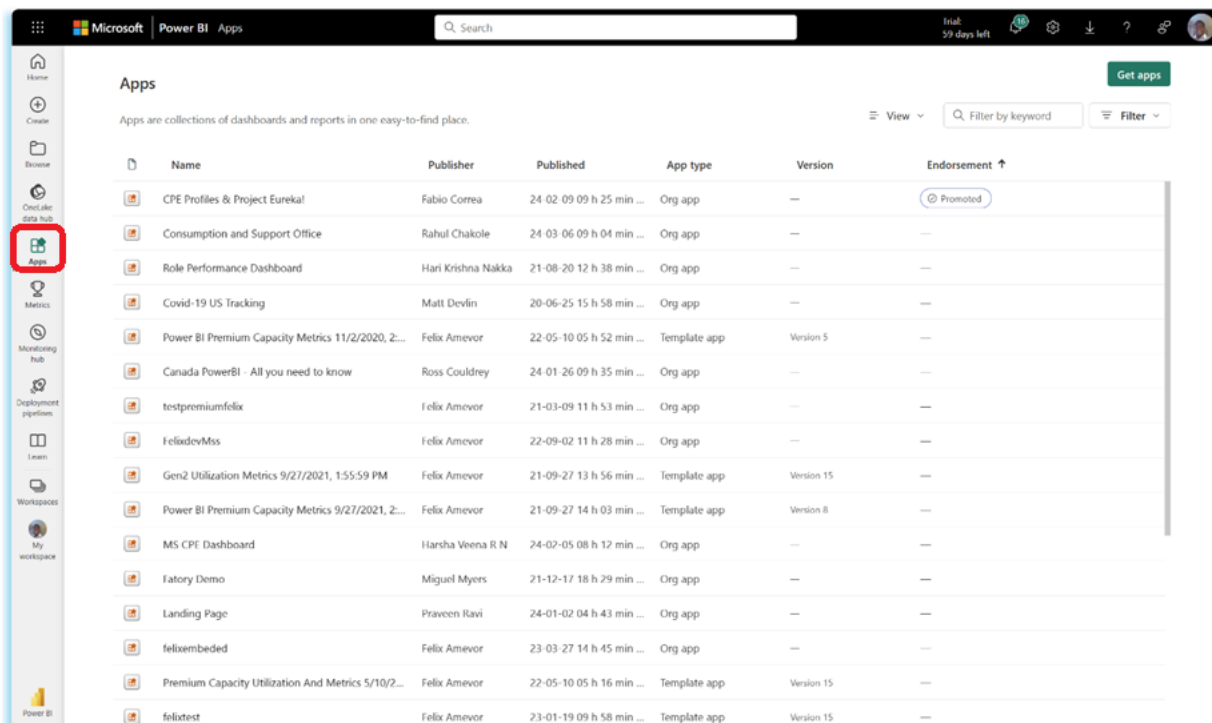

3. If prompted, agree to the terms and then select Start trial.
4. Once your trial capacity is ready, you receive a confirmation message. Select Got it to begin working in Fabric.
5. Open your Account Manager again. Notice that you now have a heading for Trial status. Your Account manager keeps track of the number of days remaining in your trial. You also see the countdown in your Fabric menu bar when you work in a product experience.

Task 2: Install Capacity Admin app

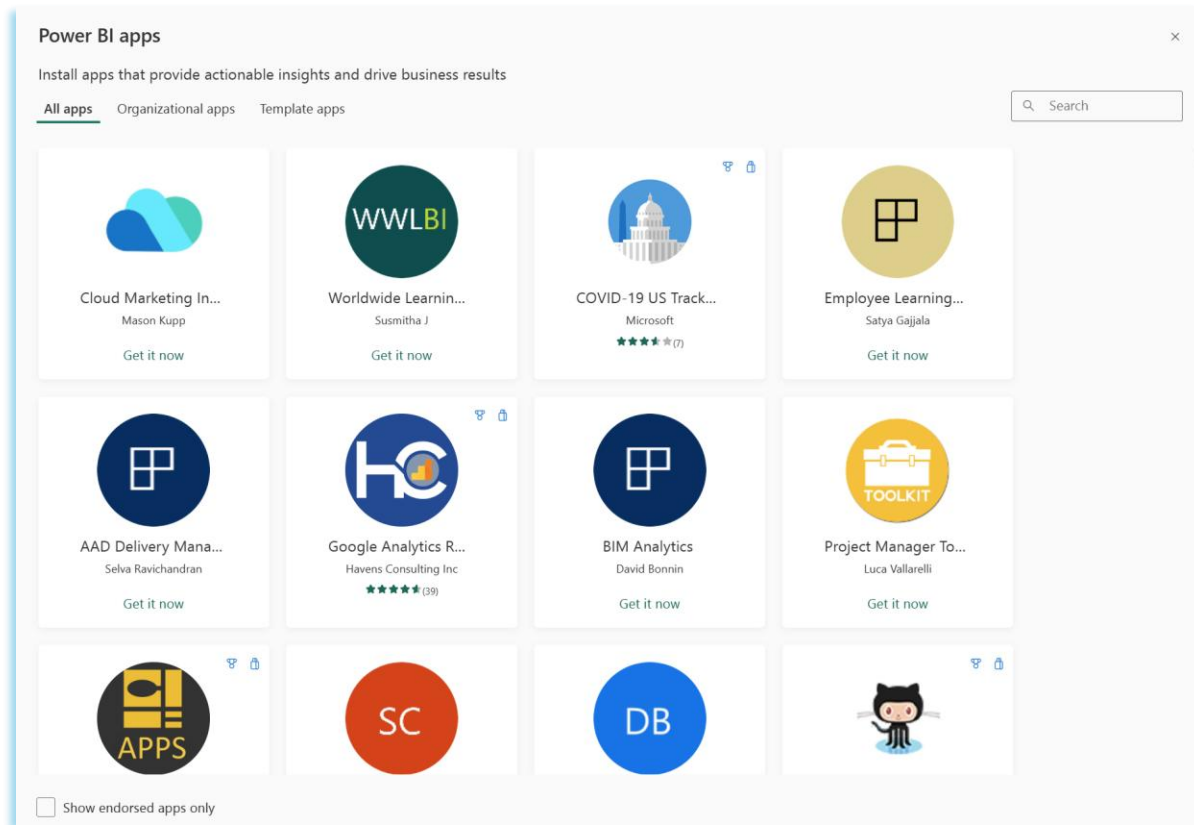

1. Navigate to [Power BI](https://app.powerbi.com) (<https://app.powerbi.com>)

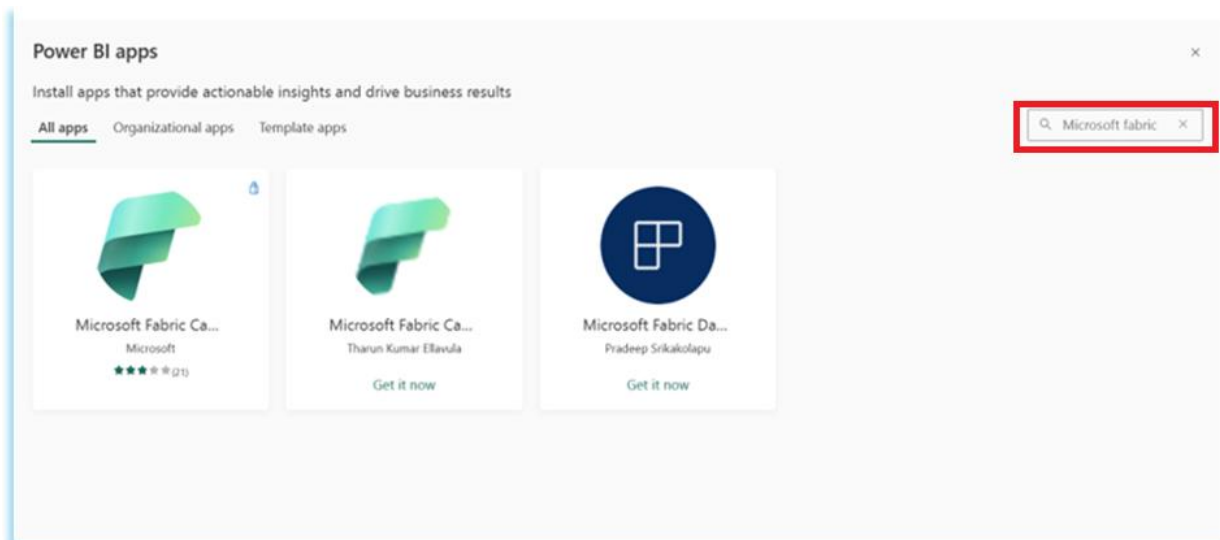

2. Click on the Application Icon on the left vertical menu.

3. Click on Get App to open applications in appservice

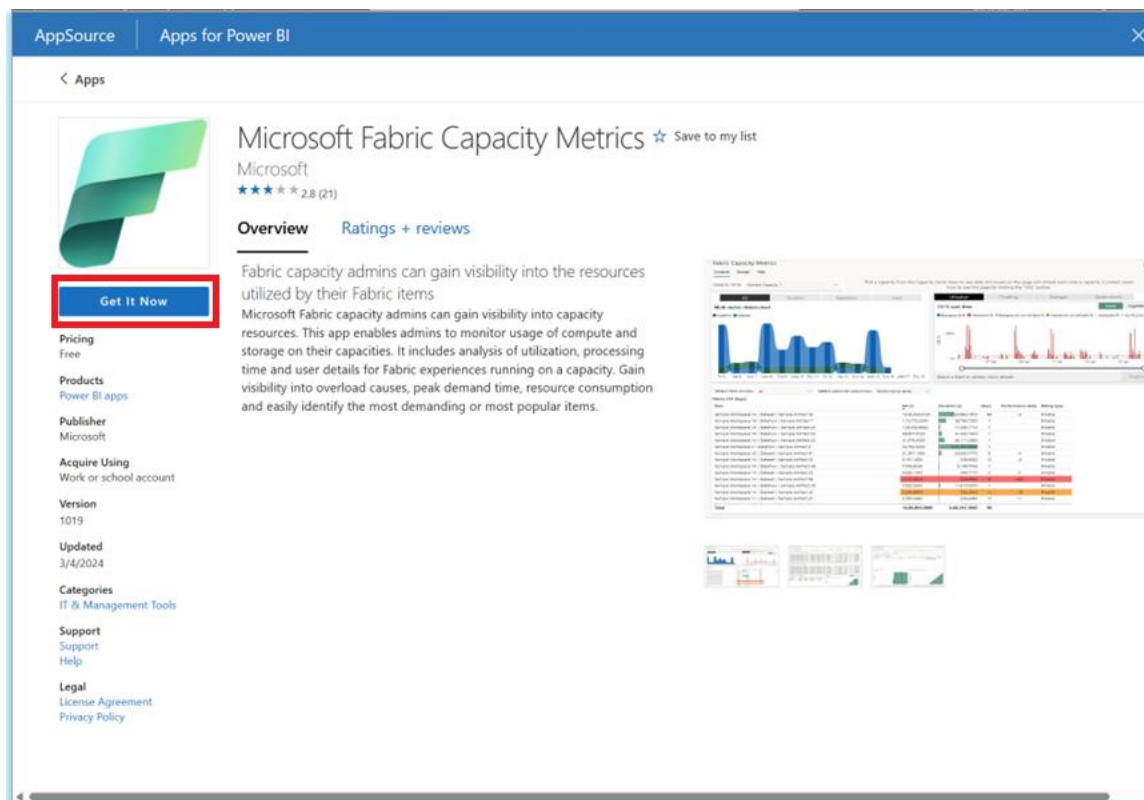

4. In the search button on your right search for Microsoft Fabric

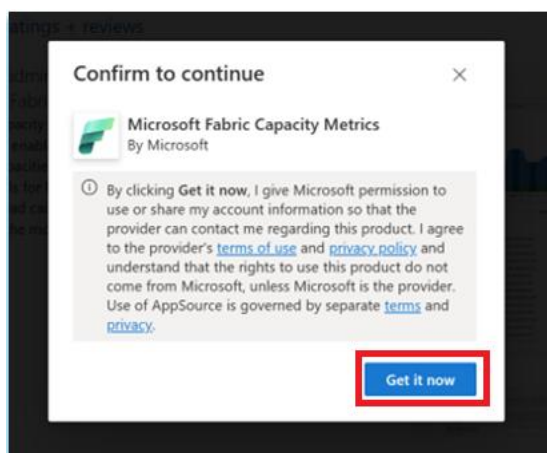

Upskilling on Microsoft Fabric Governance & Security

5. Click on get it now.

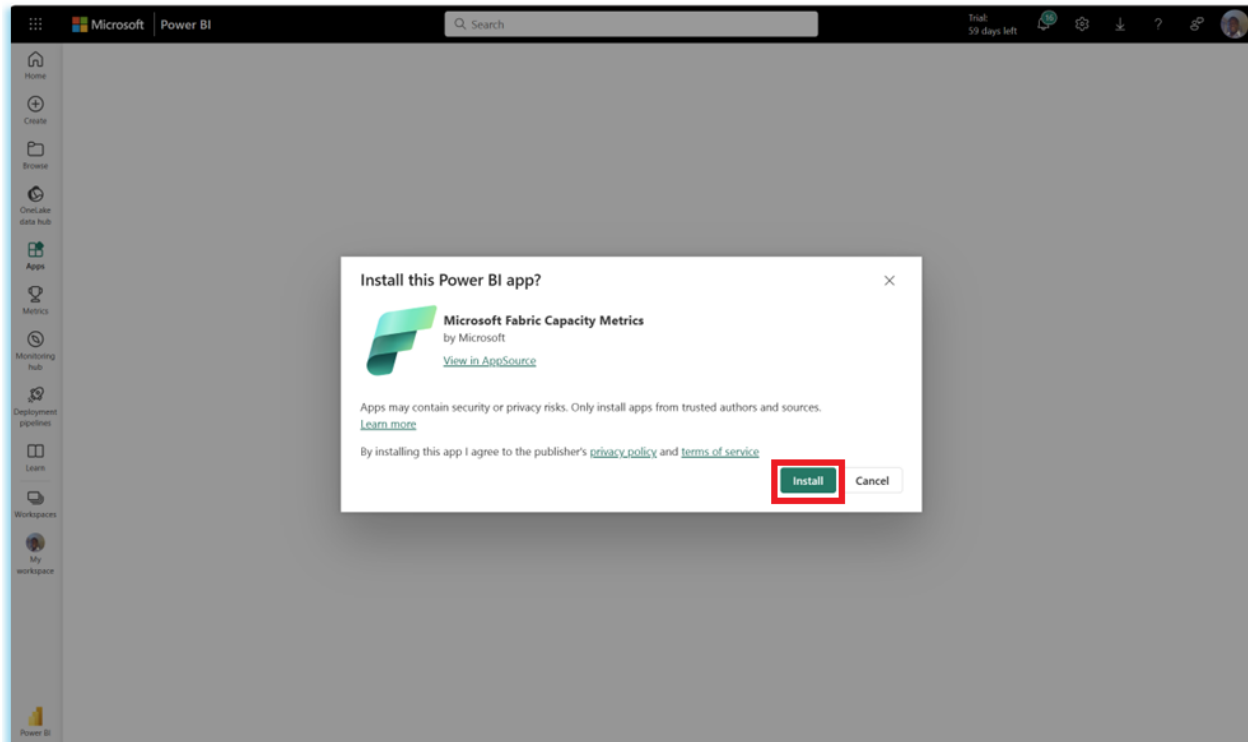

6. Confirm Microsoft SLAs by clicking on get it now.

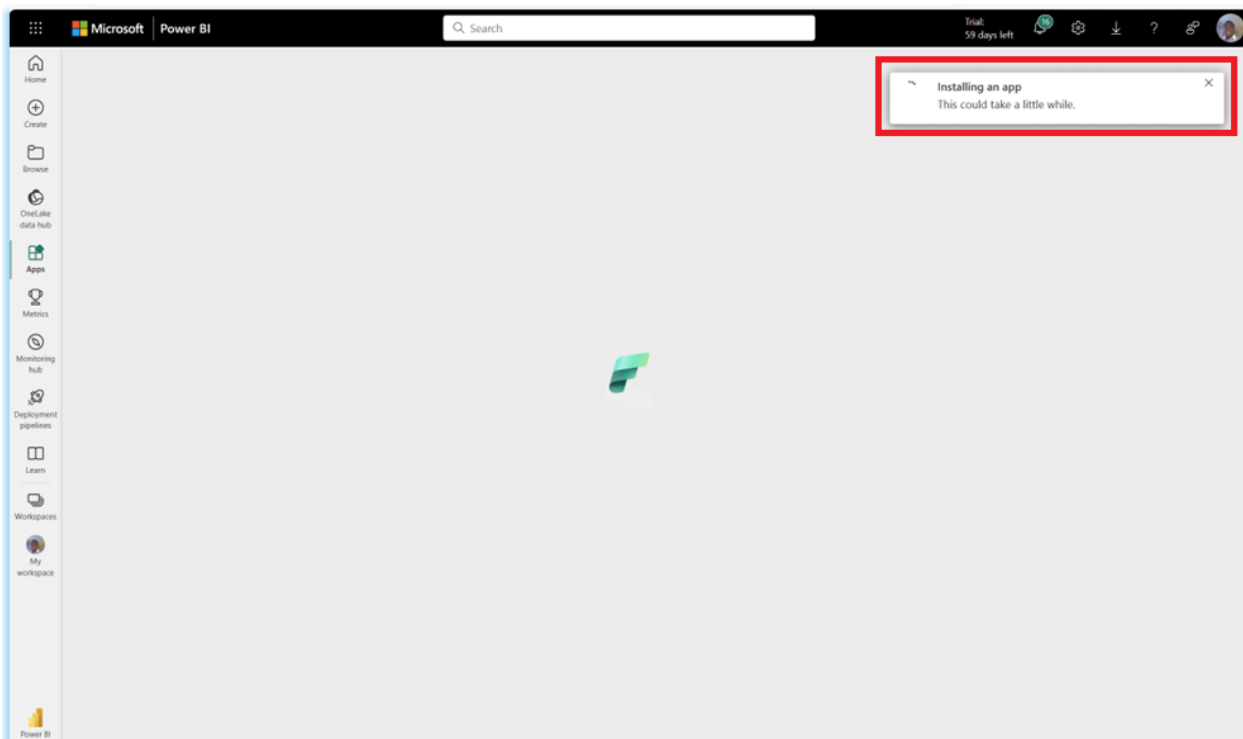

7. Click on install

Upskilling on Microsoft Fabric Governance & Security

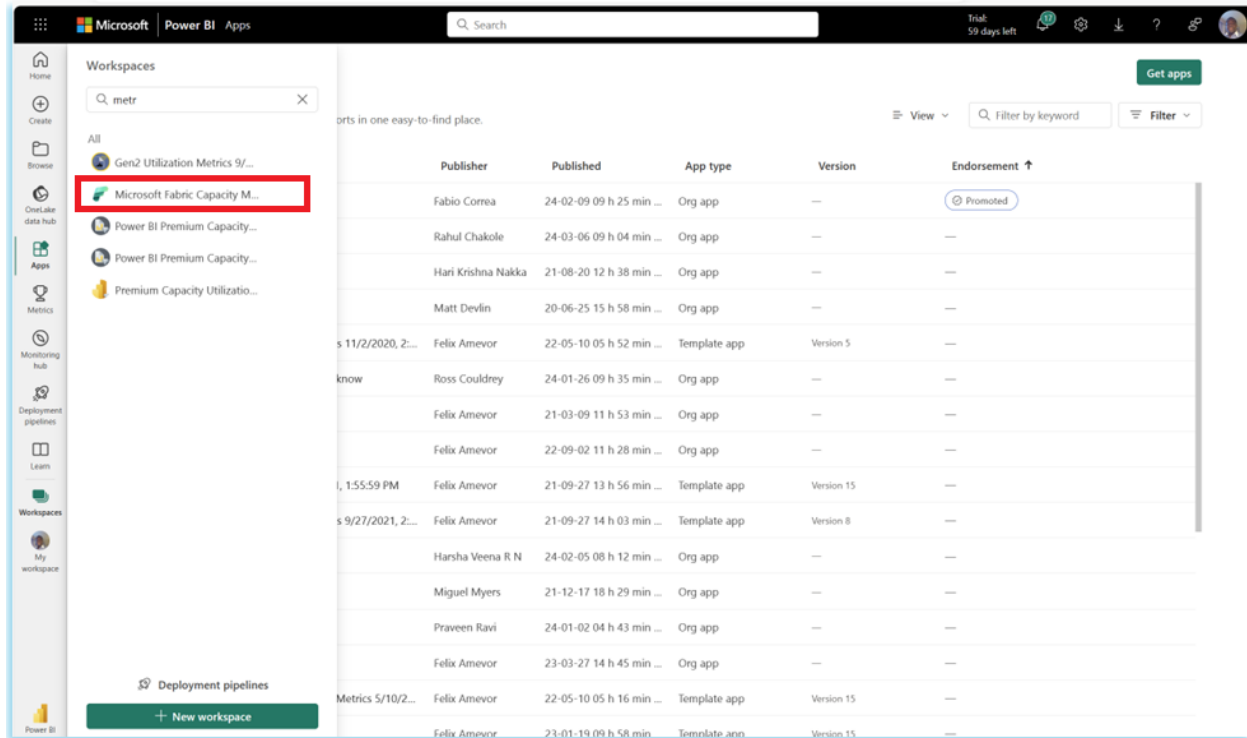

8. Apps is being installed

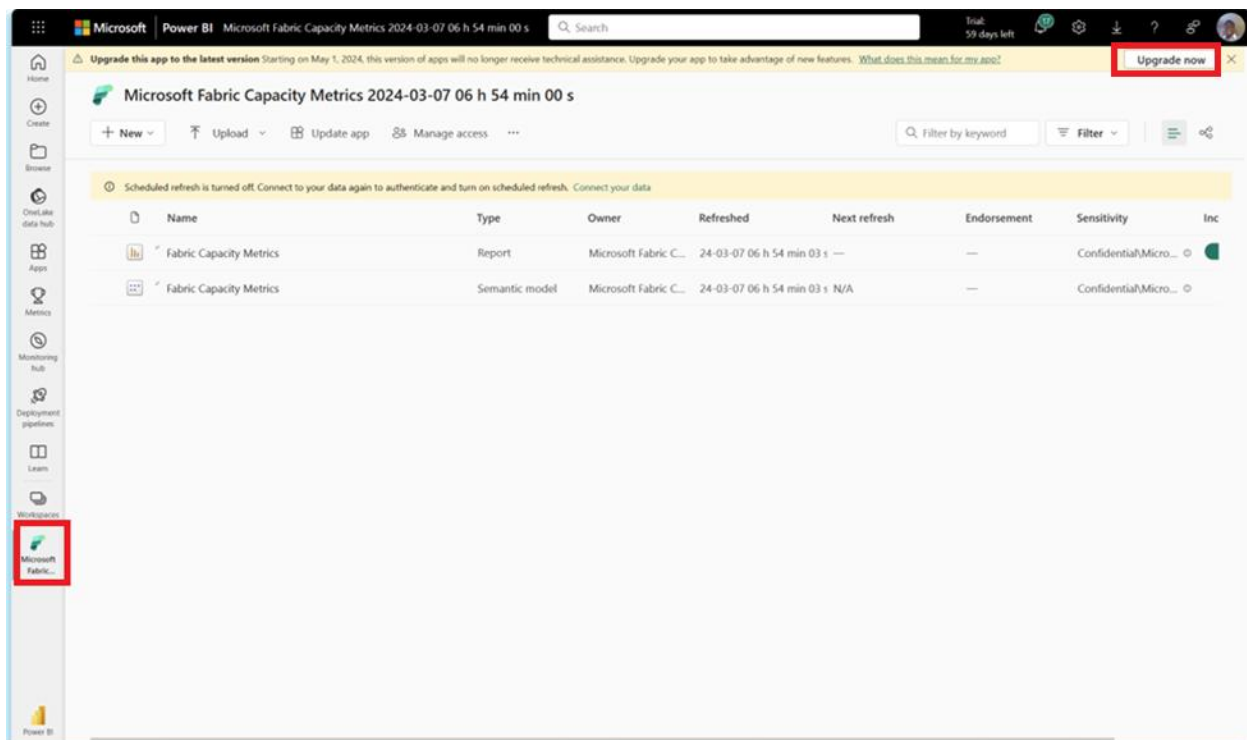

9. After installation , navigate to workspaces and search for metrics and select Microsoft fabric capacity

Upskilling on Microsoft Fabric Governance & Security

10. A warning is displayed for first time usage.

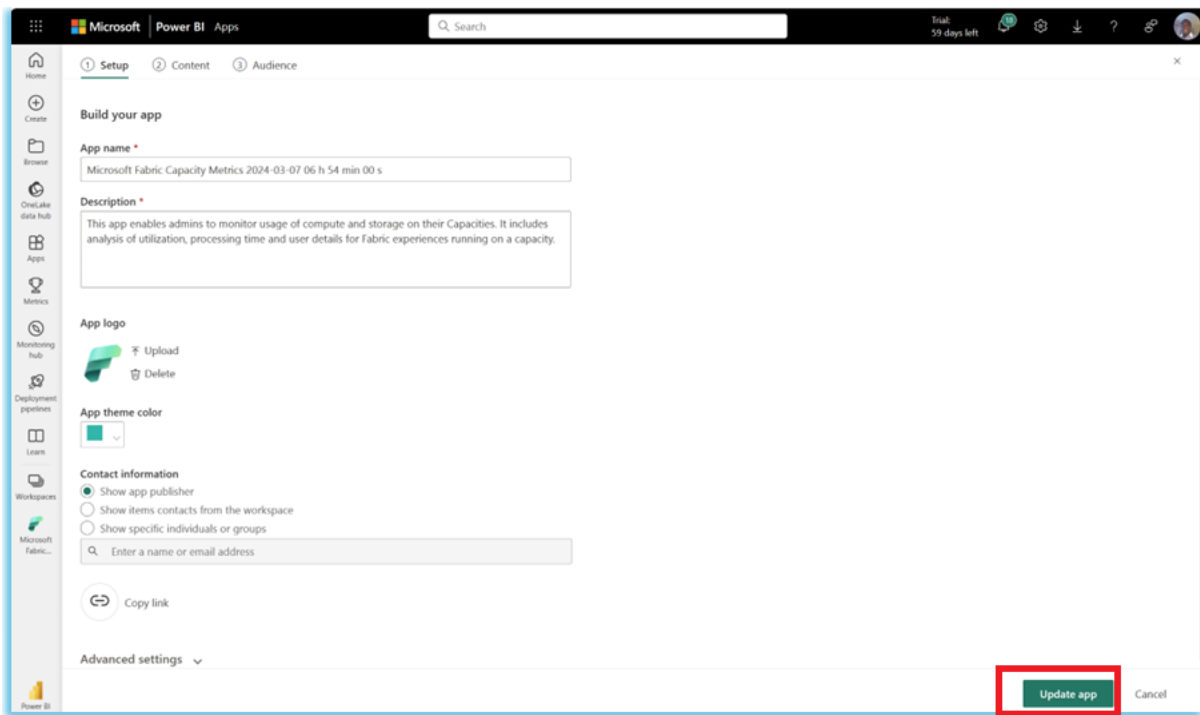

In case you have an update warning like above click on update now.

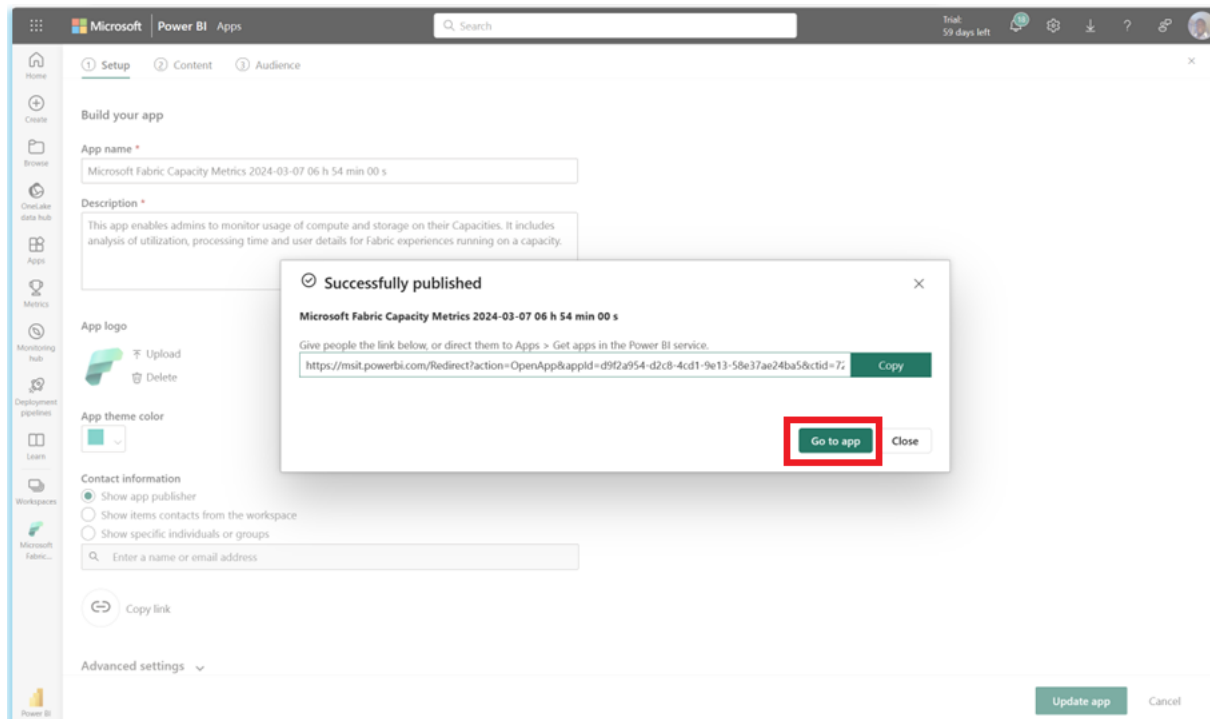

11. Update Microsoft fabric apps. Click on update app

Upskilling on Microsoft Fabric Governance & Security

12. Then click on update.

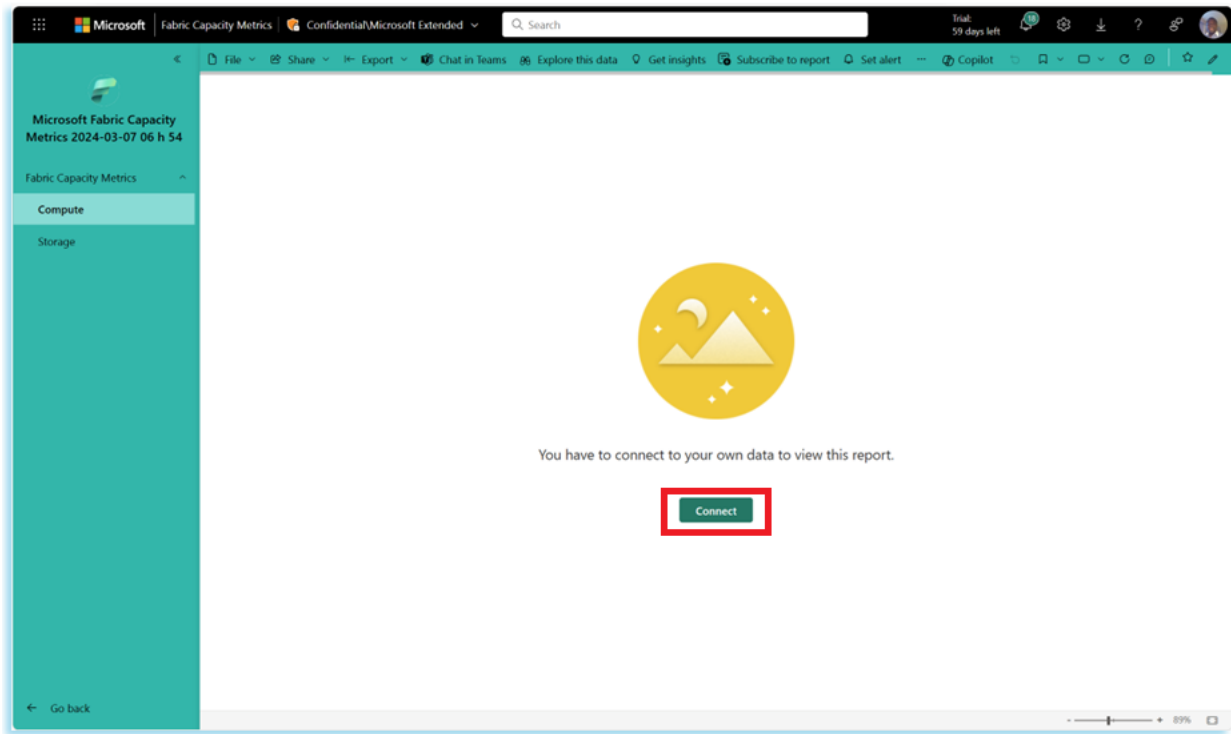

13. Microsoft fabric capacity apps will be successfully updated.

14. Copy the link and click on go to apps and click on connect.

15. Click on connect

Field	Required	Value	Notes
DefaultCapacityID	Yes	An ID of a capacity you're an admin of	You can find the capacity ID in the URL of the capacity management page. In Microsoft Fabric, go to Settings > Admin center > Capacity settings, then select a capacity. The capacity ID is shown in the URL after /capacities/. For example, 9B77CC50-E537-40E4-99B9-2B356347E584 is the capacity ID in this URL: https://app.powerbi.com/admin-portal/capacities/9B77CC50-E537-40E4-99B9-2B356347E584. After installation, the app will let you see all the capacities you can access.
UTC_offset	Yes	Numerical values ranging from 14 to -12.	Enter your organization's standard time in Coordinated Universal Time (UTC).

Upskilling on Microsoft Fabric Governance & Security

		To signify a Half hour timezone, use .5. For example, for Iran's standard time enter 3.5.	
RegionName	Yes	Fabric Region names. (i.e. "West Europe")	If you are a capacity administrator, then set the region parameter as "Default". If you're a tenant admin and have admin permissions on a capacity in the home region, or there are no capacities in home region for the whole tenant then set the parameter as "Default". Else, set it as one of the regions where you have admin permission on a capacity (for example, "West Europe").
Advanced	Optional	On or off	The app automatically refreshed your data at midnight. This option can be disabled by expanding the advanced option and selecting Off.

16. Navigate to setting.

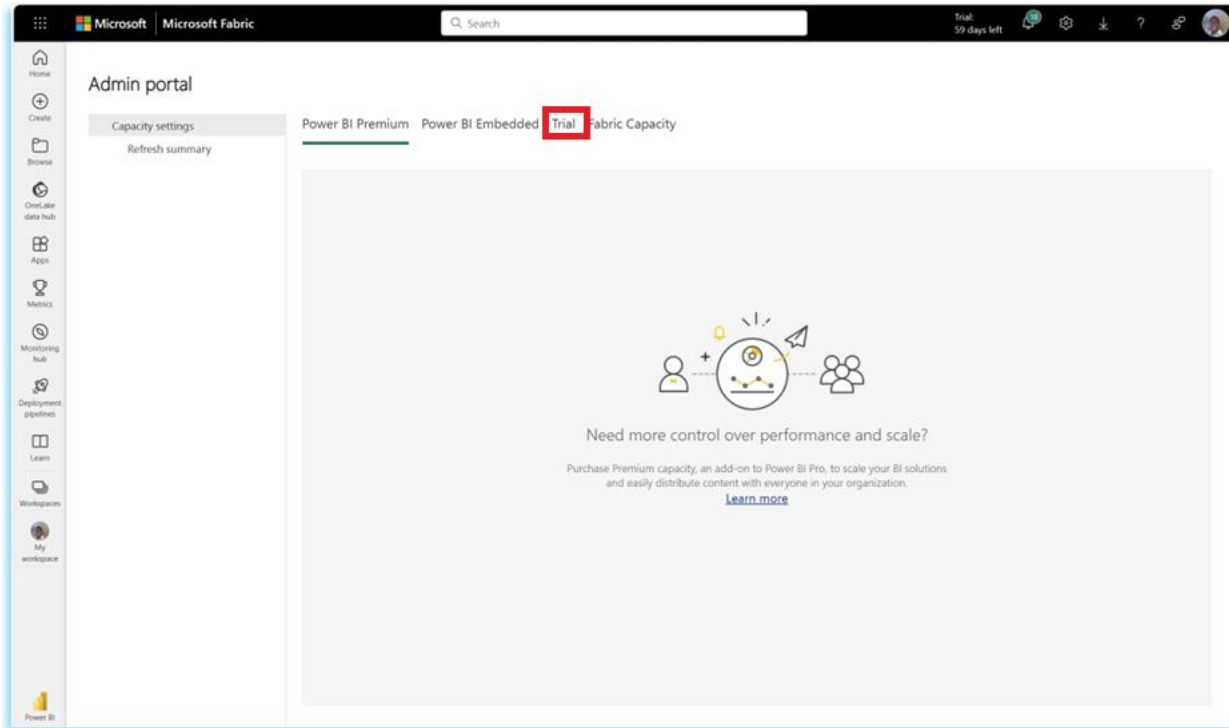

The screenshot shows the Microsoft Power BI interface. The top navigation bar includes the Microsoft logo, 'Power BI', 'My workspace', a search bar, and a 'Trial' status indicator. The left sidebar contains navigation icons for Home, Create, Browse, Data Lake, Apps, Metrics, Monitoring, Deployment, Pipelines, Learn, and Workspaces. The main workspace area displays a table of items:

Name	Type	Owner	Refreshed	Next refresh
Corporate Spend	Report	Felix Amevor	23-02-02 13 h 39 min 26 s	—
Corporate Spend	Report	Felix Amevor	23-02-06 14 h 14 min 02 s	—
Corporate Spend	Semantic model	Felix Amevor	23-02-02 13 h 39 min 26 s	N/A
Corporate Spend	Semantic model	Felix Amevor	23-02-06 14 h 14 min 02 s	N/A
Dataflow 1	Dataflow Gen2	Felix Amevor	23-06-12 13 h 33 min 17 s	N/A
Dataflow 2	Dataflow Gen2	Felix Amevor	23-06-12 13 h 54 min 42 s	N/A
Dataflow 3	Dataflow Gen2	Felix Amevor	—	N/A
Dataflow 4	Dataflow Gen2	Felix Amevor	—	N/A
Dataflow 5	Dataflow Gen2	Felix Amevor	23-12-05 11 h 48 min 45 s	N/A
DIAD Final Report	Semantic model	Felix Amevor	20-12-09 16 h 19 min 55 s	N/A
employee	Report	Felix Amevor	24-02-12 10 h 21 min 31 s	—
employee	Semantic model	Felix Amevor	24-02-12 10 h 21 min 31 s	N/A
FabricDemoPipeline	Data pipeline	Felix Amevor	—	—
Fabricdw	Warehouse	Felix Amevor	—	N/A
Fabricdw	Semantic model	Felix Amevor	23-06-12 16 h 06 min 52 s	N/A
felix	Warehouse	Felix Amevor	—	N/A

The 'Settings' panel on the right is open, showing the following sections:

- Preferences**
 - General →
 - Notifications →
 - Item settings →
 - Developer settings →
- Resources and extensions**
 - Manage personal storage →
 - Power BI settings →
 - Manage connections and gateways →
 - Manage embed codes →
 - Azure Analysis Services migrations →
- Governance and insights**
 - Admin portal →** (highlighted with a red box)
 - Microsoft Purview hub (preview) →

17. Navigate to your Fabric capacity in our case it is under trial

Upskilling on Microsoft Fabric Governance & Security

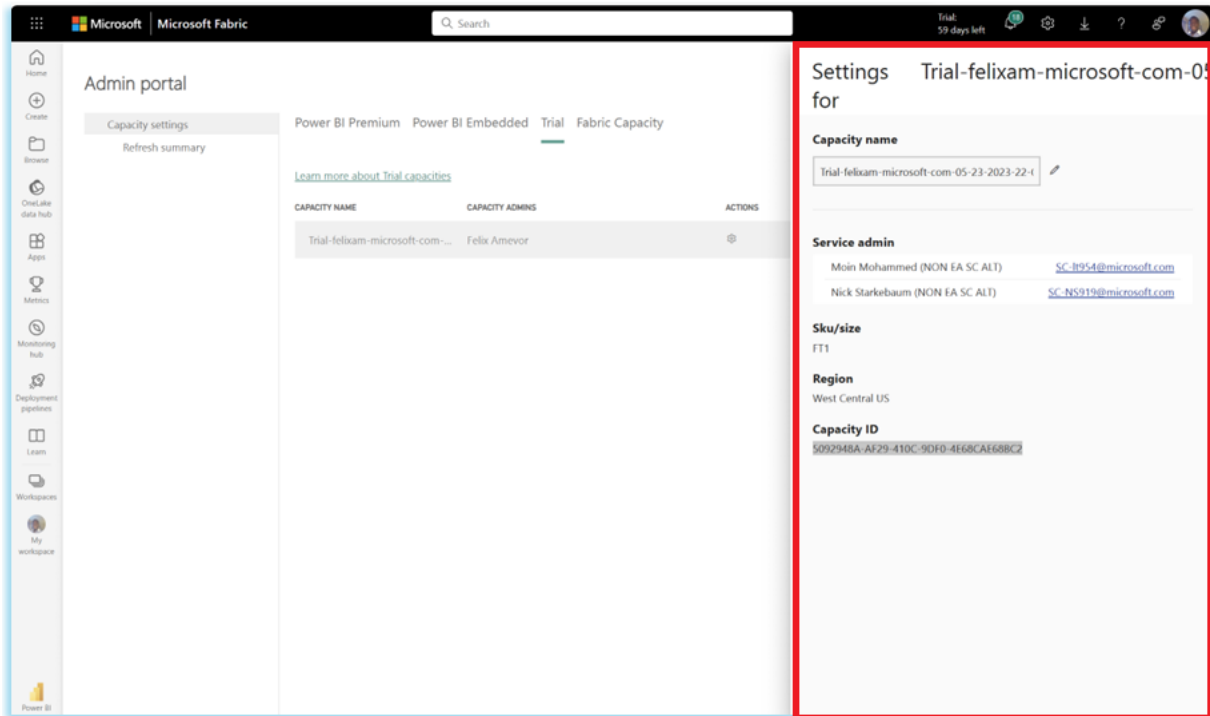

The screenshot shows the Microsoft Fabric Admin portal. The top navigation bar includes the Microsoft logo, the text "Microsoft Fabric", a search bar, and a trial status indicator "Trial 59 days left". The left sidebar contains various navigation icons. The main content area is titled "Admin portal" and features a "Capacity settings" section with a "Refresh summary" button. Below this, there are tabs for "Power BI Premium", "Power BI Embedded", "Trial" (which is selected and highlighted with a red box), and "Fabric Capacity". A link "Learn more about Trial capacities" is present. A table lists the capacities:

CAPACITY NAME	CAPACITY ADMIN	ACTIONS	CAPACITY UNITS	REGION	STATUS
Trial-felixam-microsoft-com	Felix Amevor		64	West Central US	Active

18. Navigate to your Fabric capacity and click on

This screenshot is similar to the previous one, but with a red box highlighting the capacity name "Trial-felixam-microsoft-co..." in the table, indicating it has been truncated. The rest of the interface, including the navigation bar, sidebar, and other table columns, remains the same.

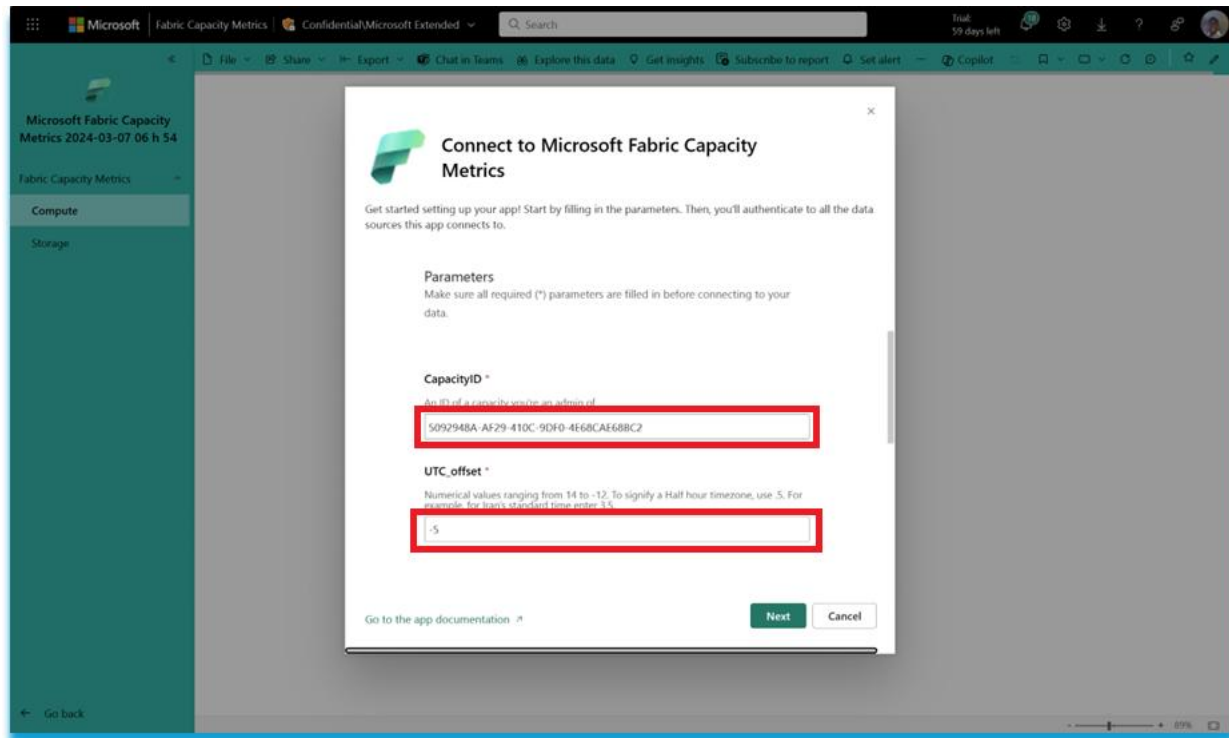

19. Get capacity ID

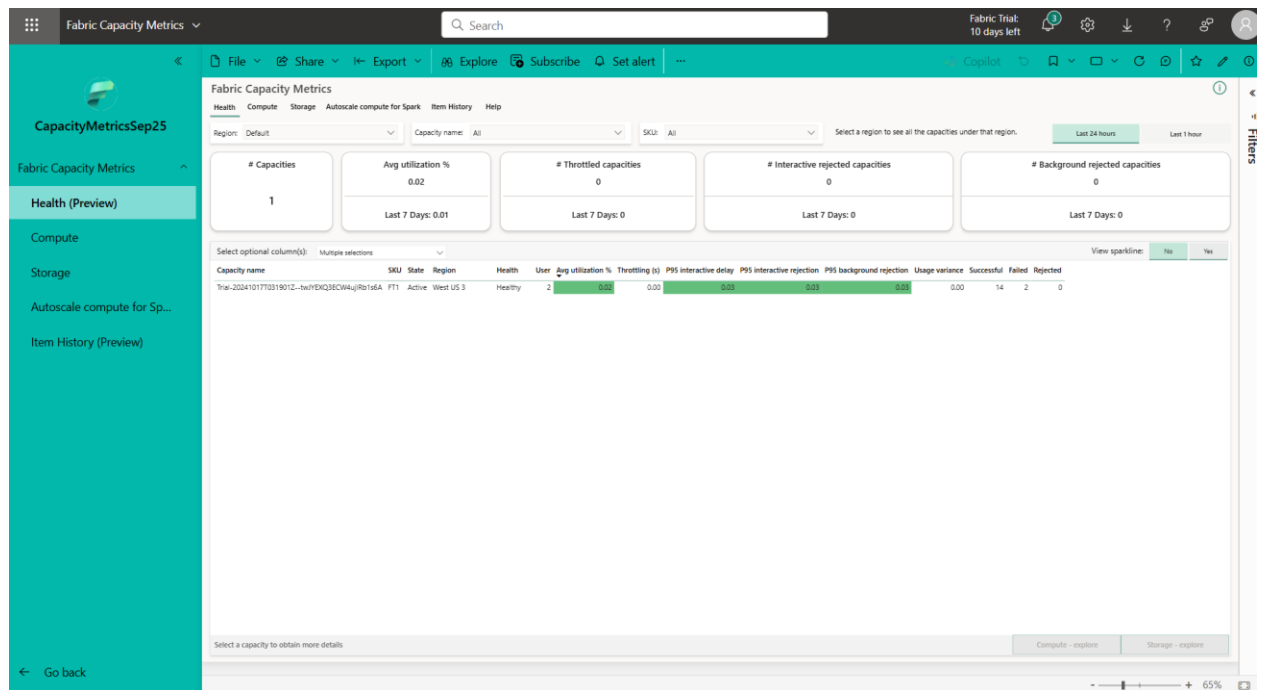

20. Copy capacity ID from above screen and past it to the following screen and click on next

21. Leave any other setting and click on signing and connect.

Upskilling on Microsoft Fabric Governance & Security

22. This is the Capacity Metrics App initial page (Health (Preview))

23. Then navigate to Compute tab

Upskilling on Microsoft Fabric Governance & Security

24. In case you got a warning like the one bellow, wait for few seconds and select your capacity name in the drop down menu .

The screenshot shows the Microsoft Fabric Capacity Metrics dashboard. A red box highlights the 'Capacity name' dropdown menu, which currently displays 'Select a capacity from dropdown'. Another red box highlights the 'Compute' option in the left-hand navigation menu. The main content area displays a 'Multi metric ribbon chart' and a 'CU % over time' chart, both showing error messages: 'For New Users: Please wait for a minute and select a capacity in the slicer to see data.' and 'For Existing Users: Please wait for a minute and refresh the page to see data.'

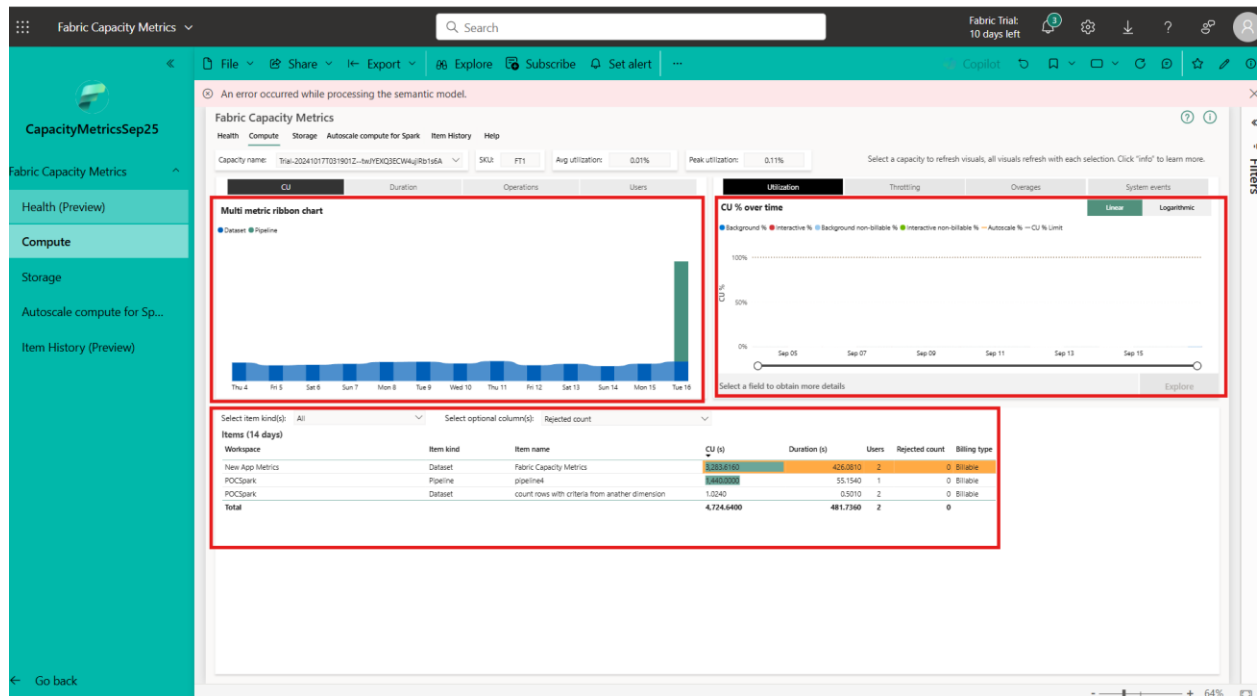

25. In the capacity name drop down menu select your capacity.

The screenshot shows the Microsoft Fabric Capacity Metrics dashboard with the 'Capacity name' dropdown menu selected. The dropdown menu displays a list of capacity names, with 'The-20241017T031901Z--mYKQ3C3CWAJgR016A' selected. The main content area displays a 'Multi metric ribbon chart' and a 'CU % over time' chart. The 'CU % over time' chart shows a bar chart with a significant spike on Tuesday, September 16th. Below the charts, a table displays the following data:

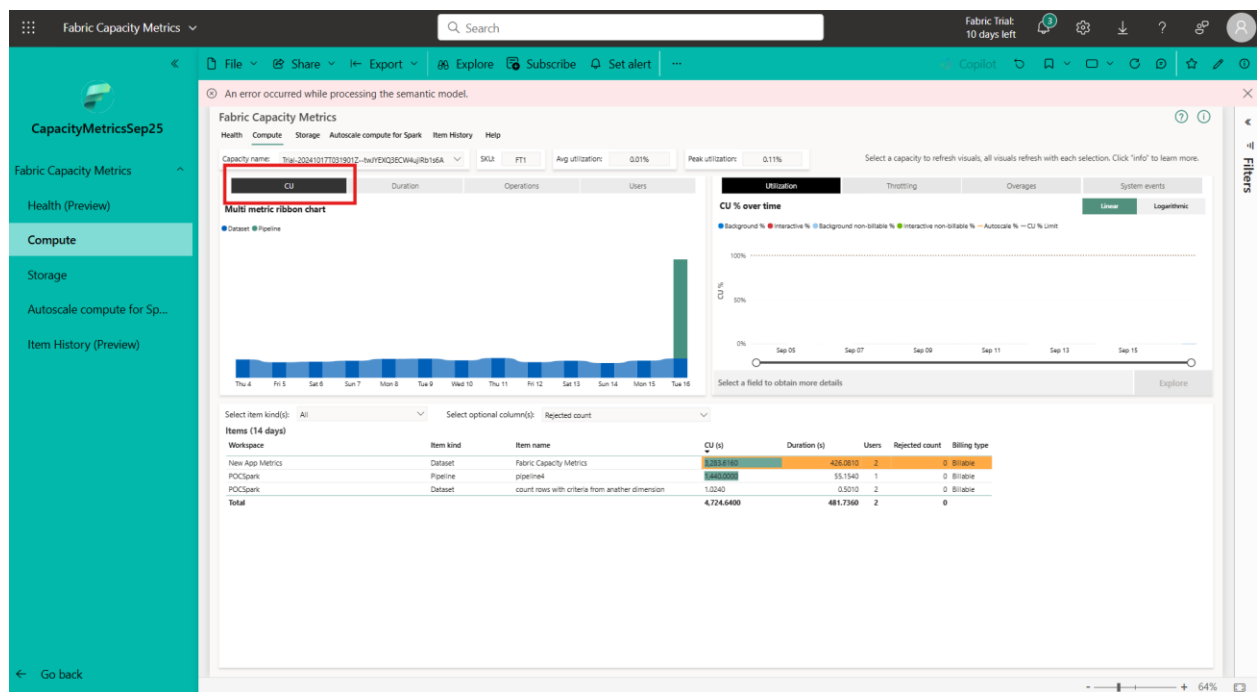

Item kind(s)	Item kind	Item name	CU (s)	Duration (s)	Users	Rejected count	Billing type
Workspace							
New App Metrics	Dataset	Fabric Capacity Metrics	4,724,640	426,0810	2	0	Blended
POCSpark	Pipeline	pipeline4	55,1540		1	0	Blended
POCSpark	Dataset	count rows with criteria from another dimension	1,0240	0,5010	2	0	Blended
Total			4,724,640		481,7360	2	0

26. Now you will see all your capacity metrics (if they do not appear wait for few min and return back)

Upskilling on Microsoft Fabric Governance & Security

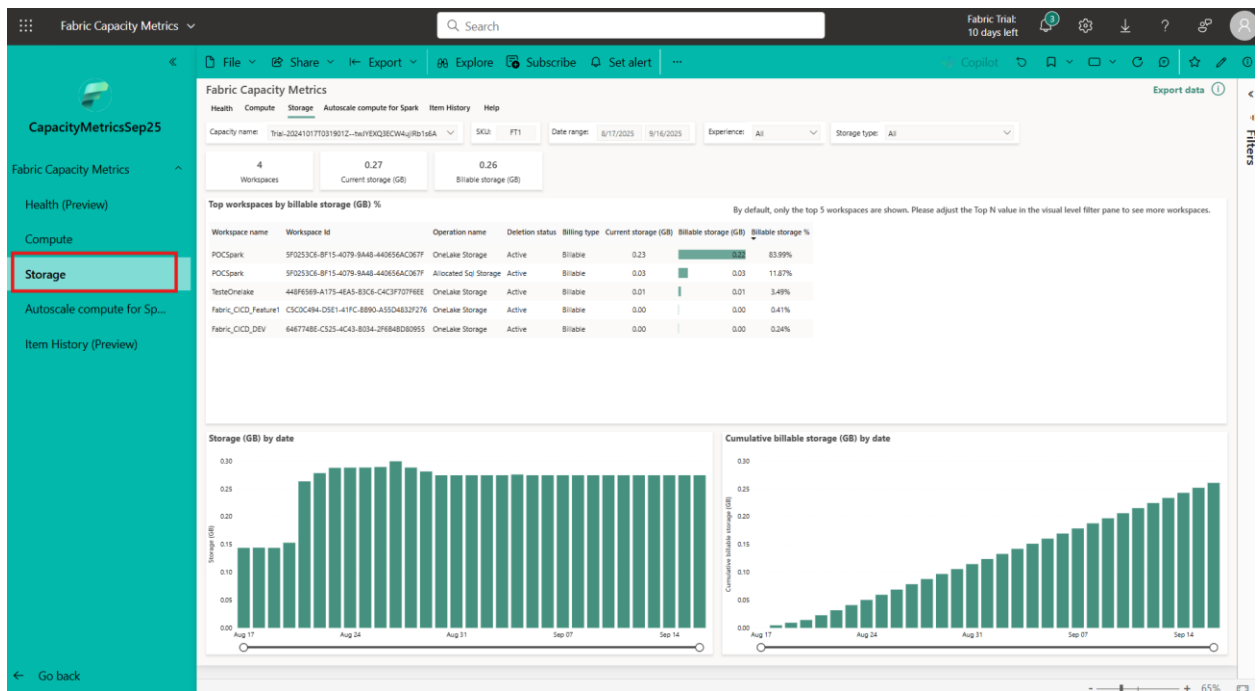

27. Navigate to CU, duration Operation and Users tab to explore capacity metrics apps.

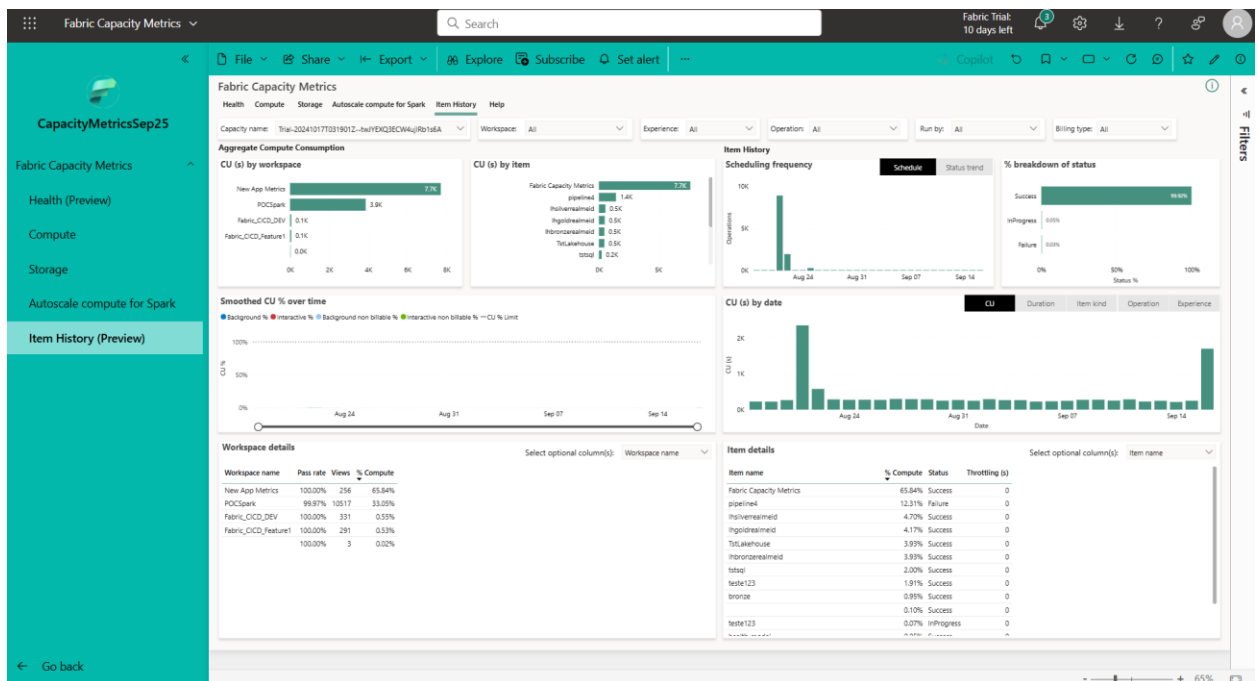

28. Navigate to storage and explore the report.

Upskilling on Microsoft Fabric Governance & Security

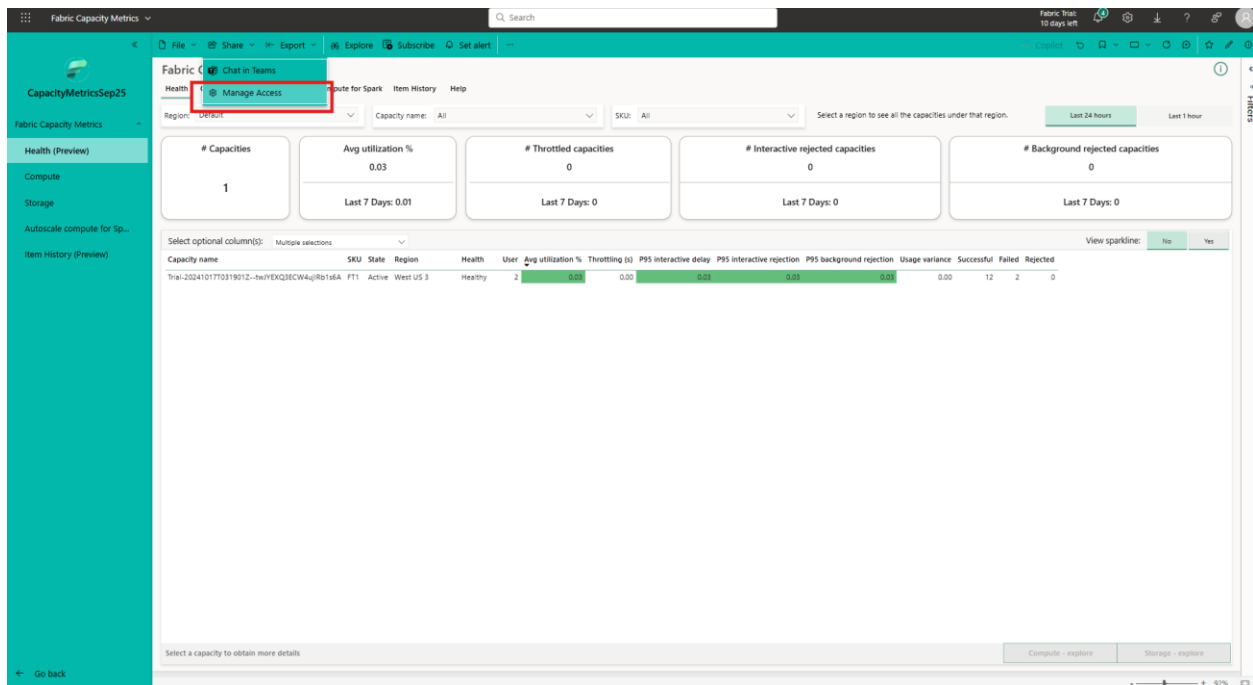

29. Explore all the other menu items on the report.

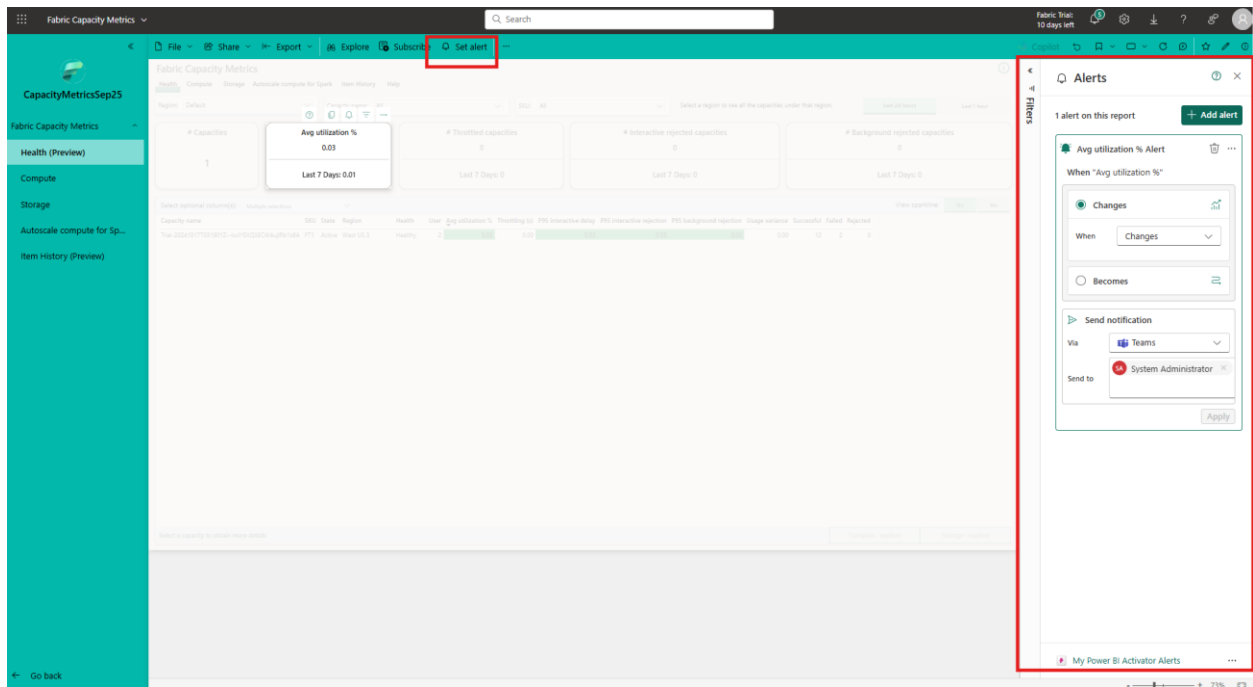

30. Explore all the other features in the report like manage access.

Upskilling on Microsoft Fabric Governance & Security

31. Set alert will allow email or team notification for Admins. Explore this feature on your own.
